

Amphibians and Biodiversity !

Packet consists of a ● Cover ● Poster ● Mask ● Rakhi (wrist band) ● Placard ● Booklet

There are three big groups of amphibians in South Asia adding up to 352 species. They all matter so much because they help us in so many ways. But they are in danger. There are so many threats to amphibians. A world that could not sustain amphibians maybe a world that will not sustain human beings also. Through this education packet you can learn and help these species to survive.
